ADVERSE TO JOHNSON.

Mayor Tom's Scheme to Add Millions to Tax Duplicate Not Upheld.

DECISION OF COURT AT CLEVELAND.

Judge Phillips Holds That the Action of the State Board of Tax Revision Was Final.

Cleveland, July 30.—Judge Phillips of the common pleas court rendered a decision against Mayor Johnson and the city of Cleveland in the mandamus proceedings brought to compel County Auditor Craig to put the \$18,000,000 additional tax assessed by the city board of equalization against five big local corporations, on the tax duplicate. The corporations involved appealed to the state board of tax revision, which remitted the increase made by the local board. Mayor Johnson then brought mandamus proceedings to overrule the state board and to compel the county auditor to place the increase on the duplicate. Judge Phillips held that the action of the state board of tax revision was final and that the court had no authority to overrule its decision in the matter. It is understood the case will be appealed.

Anthracite Coal Supply.

Philadelphia, July 30.—It is stated on reliable authority that the supply of anthracite coal in the hands of railroads and dealers here will at the present rate of consumption probably be exhausted by the middle of September. The report that the railroads are turning over to the retailers supplies they have been holding in reserve since the inauguration of the strike, is said not to be true. In only one important case, it was stated, that of the Pennsylvania railroad, has any of the roads released the coal seized by them in May. All of the others retaining what they have for their own purposes. In the case of the Pennsylvania, that road had not much need for what little it had retained as it could use its soft coal. This was the reason it turned a quantity of anthracite over to some of its trade the past week.

Americans Testify.

London, July 30.—The case of the government against Colonel Arthur Lynch, who was elected to represent Galway city in the house of commons and was accused of high treason, ended in police court and the case was remanded to give his counsel opportunity to review the evidence. Along the last witnesses called to identify Colonel Lynch were George Greig, an American, who was caretaker of a mine near Johannesburg and another American named Worthington. Both these witnesses testified that they were arrested by Boers near Verening, charged with being British spies, and that Colonel Lynch acted as prosecutor at their trial.

Yaquis Overwhelmed.

Tucson, A. T., July 30.—Driven to desperation by hunger and thirst, a band of 30 Yaquis, nearly half of them women, swooped down upon the Carmen ranch near Hermosillo Saturday and a fierce fight followed. When a patrol of Mexican troops galloped down to the rescue, two of the women and five of the men lay dead. The Yaquis were completely overwhelmed. They were weak from hunger and when attacked by superior numbers they were compelled to surrender. Fifteen prisoners were marched to Hermosillo, where they will be sentenced by General Torres.

Steel Exhibits.

St. Louis, July 30.—Doctor J. A. Holmes, chief of the department of mines and metallurgy at the Louisiana purchase exposition, has returned after an absence of several weeks. He visited New York, Washington, Baltimore, Philadelphia, Pittsburg and Bethlehem, Pa. He reports that his trip was successful in every particular. He secured promises of exhibits of steel, iron and other metallurgical products and the processes of their manufacture; coal, building stone and phosphate, drilling outfits and other mining machinery.

No Imported Machinists.

Omaha, July 30.—Secretary Samuel Grace of the Machinists' union has received from the United States immigration bureau information that any attempt to import men from foreign countries to take the places of striking shompen on railroads of the country would receive the immediate attention of the government. Mr. Grace claims to have received information that the Union Pacific railroad was preparing to import men from England and Scotland to take strikers places in the shops of its system.

WEEKLY CROP BULLETIN.

Some Damage in Western and South-Central Sections From Drouth—Prospects Bright Elsewhere in State.

[Weekly Bulletin of Weather Bureau, July 29th.]

The weather was dry; no rain of any importance occurred during the week. Temperature was below normal the first part of the week; hot, with bright sunshine, the latter part.

In the western and south-central counties the drouth has become severe and all crops are suffering. Corn in this section, though damaged in some localities, will recover and make a good crop if rain falls quite soon. Gardens, melons and newly sown grasses and clover have already received serious damage; pastures are badly burned and short. Tobacco is generally poor and is suffering severely from drouth.

In the eastern and north-central counties, corn is in excellent condition; tobacco has improved and some of it is being topped; pastures, millet, gardens, melons and potatoes are in good condition—Irish potatoes are especially fine.

The weather has been favorable for farm work; all crops are well cultivated and wheat and oats very nearly all threshed. Fairly good crops of oats and hay have been saved.

Fruit is generally inferior and scarce, though grapes are good in some localities.

MADE A FIND.

Auditor Coulter Discovers a Tax Claim of Nearly \$15,000 Due the State. Republican Carelessness.

Auditor Coulter made a discovery Monday among the records of his office which will net the State \$14,841.96, and which at the same time shows carelessness upon the part of certain officials of the preceding Republican administration of 1896. It is that the old Chesapeake, Ohio and Southwestern Railroad Company did not pay its franchise tax to the State for 1896. The assessment was made by the State Board of Valuation for that year at \$1,946,661, and the tax fixed at \$10,219.97. To this has now been added 10 per cent. penalty, amounting to \$1,021.99 and 6 per cent. interest, amounting to \$3,600. This brings the amount now due to \$14,841.96.

The C., O. and S. W. Company was bought in 1897 by the Illinois Central Railroad Company, and as, under the law, the State has a lien on the property for the debt, the latter company will have to pay the amount due.

Auditor Coulter discovered the failure of the Chesapeake, Ohio and Southwestern Company to pay while engaged in certifying to the various counties the railroad franchises for local assessment, which work is now in progress. He has prepared the tax bill for presentation to the company now owning the road.

River News.

The Gould, Tacoma and Keystone State will pass down this evening and Stanley to-night. Up to-night, the Indiana.

The company that owns the Charleston and Gallipolis packet Kanawha want \$30,000 for the boat and her trade. It is said that it is not anxious to sell at that figure.

Gallipolis Tribune: "It is said that the Pittsburg and Cincinnati Packet Company is to-day the wealthiest and best managed steamboat line on the Western waters. Its boats are the best kept up of any line and are all reported to be making big money for the owners. This reliable line of boats has been in existence since 1870, and it would not surprise some people to see their territory extended."

LAUDENSLAGER WINS.

The Present Congressman Secures a Majority of Delegates.

CLOUDY CONFLICTS AT THE POLLS.

Republican Primaries in the First Congressional Districts of New Jersey Are Productive of Turbulent Scenes.

Camden, N. J., July 30.—The condition of Joe Goddard, the Philadelphia pugilist who was shot during the Republican primary elections, is reported by the physicians at Cooper hospital as critical, and there is little hope of his recovery. Harry Miller, a local policeman, who was stabbed in the abdomen is doing well and will probably recover.

Isaac Fowler, a constable, who was stabbed at Pensauken, near Merchantville, was not seriously hurt. The body of John Morrissey of Philadelphia, who was shot and killed is at the morgue.

The riots which resulted in the murder of Morrissey and the wounding of Goddard and Miller were caused by the bitter feeling engendered through the contest for congress of Representative H. C. Loudenslager and J. A. Van Sant. Numerous fights occurred in this city and in Pensauken township near Merchantville, between the adherents of the two candidates.

Goddard was shot at the polls in Pensauken and Morrissey and Miller received their injuries in this city. Isaac Fowler, a constable of Pensauken, was stabbed during a melee at Dog Corner, in Pensauken township.

The first congressional district, in which the primaries were held, include Camden, Gloucester and Salem counties. The total number of delegates is 304. Loudenslager claims 51 delegates in Camden, 67 in Gloucester and 75 in Salem, a total of 193. Van Sant claims 97 in Camden, 36 in Gloucester and 20 in Salem total of 153, which number is necessary to a choice.

At noon former Sheriff David Baird, who opposed the candidacy of Mr. Loudenslager, admitted the congressman had secured a majority of the delegates. No figures were announced.

Peace Negotiations Off.

New York, July 30.—Peace negotiations which have been in progress in this city between General Pampillo Guterrez of the Colombian government and General Gabriel Vargas Santos, chief of the revolution in Colombia have come to an abrupt end, and the insurrection, which for nearly three years has existed in Colombia, must continue. However, General Guterrez has received a report from General Salazar of the province of Panama, announcing a battle at Agua Dulce between the government and the rebel forces. Thereupon he gave notice that all negotiations were off for the present at least. He gave as his reason that he could not continue the convention while there was a state of actual warfare.

Earthquake in Iowa.

Omaha, July 30.—Reports received from points in northern and western Nebraska indicates that Monday's earthquake was more general than at first reported, and quite severe in some places. At Oakdale buildings were considerably shaken up and at Battle Creek the disturbance lasted half a minute. Tilden, Norfolk, Creighton, Plainview, Pierce and Neigh report shocks lasting 20 seconds, and at Elgin three distinct quakes were felt. At none of these towns, however, was there any serious damage, the breaking of windows and dishes and cracking of plaster being the extent of the destruction.

Guide's Body Found.

Saramac Lake, N. Y., July 30.—William Tierney, an Adirondack guide who with his companion, George Jackson, disappeared a month ago, has been found dead. Tierney and Jackson went out in a boat to fish on the upper lake. The next day their boat was found with a couple of holes in it. As each man was a thorough oarsman and a good swimmer, the cause of their death is a mystery. Divers were employed to look for the bodies, money to defray the expense being raised by wealthy summer visitors. Tierney was found in water 20 feet, but Jackson's body has not been recovered.

Mrs. Stoddard Ill.

New York, July 30.—Mrs. Elizabeth D. Stoddard, wife of the poet R. H. Stoddard, is critically ill at her home in this city. She was taken ill with influenza three weeks ago, since which time she has grown steadily worse. Mrs. Stoddard is well known as a writer.

The Mite Society of the M. E. Church, South, will meet with Mrs. John W. Boulden, 216 West Second street, this evening.

The strike in the West Virginia coal regions is seriously interfering with coal traffic over the C. and O. The company's business continues to show a heavy decrease, the decrease the third week of July being \$67,240 compared with the corresponding period a year ago.

Tuesday's Bourbon News says: "Mr. J. V. Lytle and family will move to-morrow to Maysville where they will reside in the future. Mr. Lytle has been one of our most substantial citizens, and Paris people regret to lose him from their midst. Mr. Foster Lytle will remain in Paris."

Martin & Sedgwick, of Clarksburg, W. Va., were at Parker's stable Tuesday, and bought seventeen fine horses, paying over \$200 for some of them. Hodgkinson & Hooper, of Waynesburg, Pa., who have been spending several days here, also secured six fine ones. Mr. Parker shipped the purchase for them last night on the steamer Virginia.

The Clerk of the Court of Appeals announces that August 26th next will be the last day for the filing of appeals in his office to be placed on the docket for the September term of the court. The copy for the docket will on that day be sent to the printer, and, about September 1st, will be sent for distribution. The fall term of the court opens on Sept. 15.

The naptha launch Olympia made another trip to Cincinnati Saturday afternoon, leaving the wharf at 3 o'clock p. m., and returning here at 5:30 a. m. Monday. The boys report a good time with the exception of what they lost in running over all the sand-bars, grades and dykes, between Maysville and the city. They were well provided with cheese sandwiches and sich like, and staid up all night to keep from sleepin', and slept all day to keep from eatin'.

A cheap and feasible way for connecting the Ohio river and Lake Erie so that the connection may be of some benefit to the coal interests of the Pittsburg district is suggested in the annual report of Major E. H. Ruffner, the army engineer in charge of the work on the Muskingum river. The lock and dam above Zanesville have been in a state of ruin since 1876; its restoration would connect the Muskingum river slackwater system with the Ohio canal at Dresden and give a water line from Lake Erie to the Ohio river. The cost of the work on dam No. 11 and dredging out shoals below the lock site and for contingencies is estimated at only \$110,000.

The making of matches is done now almost wholly by machinery. Each machine cuts forty-eight matches at a stroke, and the larger ones make 230 strokes a minute. As the matches are cut they are automatically stuck in a flexible cast-iron band, from which they project like bristles. This band travels over wheel after wheel, dipping the matches and carrying them by ventilating machines until they are dry and ready to pack. The machines are absolutely reliable; they will not handle broken matches, and the dust and breakages drop out and are carried down into the furnaces under the boilers. It takes about twelve hands to work one of these machines, and each machine will turn out more than 4,000,000 matches in ten hours.

MURDER MYSTERY.

General Delgado Accused of Slaying His Former Secretary.

Havana, July 30.—General Perico Delado is under arrest, charged with having assassinated Antonio Acosta, a nephew of Colonel Baldomero Acosta. The arrest has caused a profound sensation, as General Delgado is one of the best known Cubans. He commanded the Cuban sharpshooters who operated against Weyler's black Spanish guerillas in the late revolution. He is now an officer of the Cuban rural guard.

General Delgado's trial promises to be sensational as there has been much mystery surrounding the disappearance of young Acosta from his home six weeks ago. It is said that Colonel Acosta, the young man's uncle who obtained private information that his nephew was seized by guards under Delgado's direction and afterward was seen taken from the police station at night handcuffed and between two of Delgado's men. Young Acosta was alide-de-camp to General Delgado during the recent war, and for a long time was his confidential secretary. Not long ago charges were made against Delgado by a number of cattle owners in connection with the operation of cattle thieves.

POLICY TOWARD BOERS

Chamberlain Tells What the People of South Africa May Expect.

HOW COSTS OF WAR ARE TO BE MET.

The Principal Industry Will Likely Contribute Under Some Scheme of Taxation For Relief of This Burden.

London, July 30.—Colonial Secretary Chamberlain appeared in the house of commons for the first time since his recent accident. He was greeted with hearty cheering and later he was warmly congratulated by Sir Henry Campbell-Bannerman, Liberal leader in the house.

Sir Henry Campbell-Bannerman supplanted his congratulations by asking for information of the colonial conference. He expressed the hope that lenient treatment would be extended to the Boers in South Africa.

Mr. Chamberlain replied that the spirit animating the members of the conference was the desire to draw closer together the constituent parts of the empire and he thought it safe to say that the conference had made important progress towards a perfect union to which he himself looked forward.

Regarding South Africa, Lord Milner, the high commissioner, had telegraphed spontaneously that he did not think further legislation necessary to make the banishment proclamation effective. The government, however, reserved to itself the important right in the new colonies to refuse to allow the return or to keep watch over persons who showed themselves inimical to good order, and peace. "We are not going to allow the result of the war to be undermined," said Mr. Chamberlain, "by intrigues carried on by nominally constitutional means."

Regarding the future status of South Africa, the colonial secretary said the imperial government had established a crown colony in the strictest sense. The next step would be to add a nominated official element. Thereafter there would be an elected official element and then nothing but circumstances and time would separate the new colonies from full self-government, the ultimate goal of their ambition.

That consummation would not be delayed, if for no other reason, because it might relieve the government of the tremendous burden of responsibility involved in the present situation, but all must understand that the government would not be rushed nor hustled into any action which circumstances did not warrant. The speaker said he was one of those optimistic enough to believe that the new colonies would reach the ultimate goal of their ambition much sooner than many persons now thought possible.

So far as the government was concerned the surrender promises would be kept in spirit as well as in letter. The government, he said, was bound both by honor and interest to this course. There remained many questions to be dealt with; a new tariff must be arranged involving intricate questions concerning which experts must be consulted and the taxation of mines must be settled, but he wished to say nothing would be done to punish owners of mines as had been suggested in many quarters.

The government would do nothing to interfere with quick revival of development of the country. Subject to that consideration, Mr. Chamberlain continued, no man was more anxious than he to reverse some considerable part of the war cost. He thought it would be perfectly fair to lay a fair part of the cost of the war on the principal industry of the Transvaal, but what amount it was too soon to say.

Murder on Shipboard.

New York, July 30.—Two men are missing from the crew of the fruit steamer Palome, which has just reached port. Gus Oslin, one of the missing men, was almost instantly killed, his shipmates say, by a blow over the heart, after a quarrel over the possession of a silver spoon. A Spaniard who is alleged to have struck the blow continued his duties as fireman and remained on the Palome until she touched at Port-Au-Prince, Hayti, when he disappeared.

Carnegie Declines.

Richmond, Va., July 30.—Andrew Carnegie has declined the proposition submitted to him by the special committee representing the art societies of Richmond to give the \$100,000 he proposed to donate to a public library towards a fund for the erection of a great building to be the home of the fine arts in this city which it was proposed should include a library.

CONGRESS successfully balked all legislation looking to genuine reciprocity treaties with foreign countries, treaties that would have resulted in lowering the prices of necessities to the vast majority of the common people; all tariff legislation that would have compelled the trusts to, at least, if nothing more, have sold their products to the country which gave them birth at the same figure they do to foreign countries. And bear in mind it was a Republican Congress that was guilty of this.

"REPUBLICAN protestations of hostility to the trusts voiced under a panicky apprehension of defeat in the approaching Congressional elections have no effect upon the popular mind at this late day," asserts the St. Louis Republic. "The record of the Republican party is that of unflinching obedience to the will of the trusts. The political record of the trusts is that of unwavering financial and moral support of the Republican party. The two have been in close partnership ever since the trusts were nursed to strength by the malign operation of a high protective tariff. The people have suffered grievously as a result of this partnership. They know that, to get rid of the trusts, they must get rid of the high protective tariff. They know that to get rid of the high protective tariff they must get rid of the Republican party in control of the government."

THE CONGRESSIONAL FIGHT.

Asbland Man Says Republican Party is Controlled by the Corporations.

[A. E. Lampton in Cincinnati Enquirer.]

If there was a possibility, or a probability, that the coming Republican Congressional convention in this (the Ninth) district of Kentucky would nominate a candidate who is not owned body and soul by the corporations, but who would be, if elected, the representative of the people and not the paid emissary of corporate greed, there would be a strong possibility, or probability, of electing him. There is a growing sentiment in the mountains of Northeastern Kentucky that the great common people have some rights as well as the great corporations, and while there is no sentiment hostile to the full enjoyment by the corporations of all rights guaranteed them by law, there is a determination on the part of the rank and file of both great parties that so far as our votes can make it so this shall be a government of the people, by the people and for the people.

Ashland, Ky., July 28, 1902.

STATE ELECTION COMMISSIONERS.

Governor Beckham Names Hon. Charles B. Poyntz and Hon. Geo. W. Long.

On the recommendations of Chairman Allie W. Young, of the Democratic State Central Committee, and Chairman C. M. Barnett, of the Republican Committee, Gov. Beckham has commissioned Chas. B. Poyntz, of Maysville, and George W. Long, of Leitchfield, as the representatives of the two dominant parties on the State Election Commission.

The third member of the body is, under the law, Appellate Court Clerk S. J. Shackelford.

The commissioners will meet some time during the month of August and select the various county election boards.

In late years men have made fortunes out of tailings of gold mines. The mills in which the ore formerly was crushed and the crude process then in use allowed a large per centage of the precious metal to escape and that loss amounted in some cases to a fortune. The stomach is just like a stamp mill in this respect, that when it is not in perfect order it allows the escape and waste of much of the precious nutriment contained in food. That loss when continuous means the loss of man's greatest fortune—health. Science offers a remedy for this condition in Dr. Pierce's Golden Medical Discovery. It corrects the "weakness" of the stomach, prevents waste and loss of nutriment and puts the stomach and organs of digestion and nutrition into a condition of health which enables them to save and assimilate all the nutriment contained in the food which is eaten. In all cases of constipation the use of Dr. Pierce's Pleasant Pellets will speedily and permanently cure the disease.

Nightgowns!

There are twenty-two in the lot varying in price from \$1.95 to \$4.50. They are soiled from use in window and store decoration. But they are perfect in cut, sewing, material and design. We tried to sell them at the regular price—you passed them by in favor of their fairer sisters. We tried a small descent in price—the garments were so perfect, justice revolted at a deep cut. Still you would have none of them. Now there is absolutely nothing the matter with these gowns, except the dust and that the best store keeping can't prevent. Many women will not wear a ready-made undergarment until it's laundered, no matter how fresh and spotless. So they can't object to having the purchase "tubbed" and women less extreme will feel compensated for the trouble by the big money saving. We're determined every one of these gowns shall have new owners before the week ends. To simply read of the price reductions may not be impressive, but you'll appreciate its significance if you will only see the—

GERMANTOWN, July 29th.—Friday, August 1st, the Bracken County convention of the Christian Church meets at Triumph. All are invited to attend. Miss Sublette, of Lexington, State organizer, will represent the C. W. B. M.
 Mr. John C. Adamson, late of Maysville, has joined his family at Mr. Evan Lloyd's. After a short visit to his numerous friends he will return to Nashville, taking with him his interesting family. Mason County can ill afford to give up such substantial citizens, but our loss is Nashville's gain. We wish Mr. Adamson success in his new home.
 Mrs. Joseph A. Walton, of Redlands, Cal., with her two splendid boys—Lloyd Taliaferro and Joseph A., Jr., have been with Mrs. Tom Tyler. Mrs. Walton talks with much enthusiasm of California, the fine climate and future business prospects. Her husband some two years ago purchased a handsome orange grove of Washington Navel. An orange grove possesses a charm either in bud, bloom or fruitage, and the owner of one should take a roseate view of life. Mrs. Walton, with other friends, was very handsomely entertained by Mrs. Tyler, Mrs. Joseph F. Walton, Mrs. Welburn Reese and Mrs. Evan Lloyd.
 Mrs. Carrie Riggs Charles, late of Vassalboro, Me., who has been visiting her grandmother, Mrs. George Humong, left a few days since for Richmond, Ind., to join her husband, who has been taking a summer course at Chicago University. They leave at once for Germany to study one year across the waters.
 Judge Matt Walton and wife and interesting daughter, Clara Belle, of Lexington, have been making their summer visit at "Walton Place."

EAST LIMESTONE, July 29th.—A heavy rain fell in this vicinity Monday night. A finer season for crops could not be desired.
 Mrs. Robert H. Williams remains in poor health.
 Mr. and Mrs. Weede Breeze visited the stricken Breeze family the past week.

 Mrs. Abe Haucke and children returned to their home at Cincinnati Monday evening, accompanied by her husband who came up Saturday morning.
 George C. Williams and family, of Maysville, spent Saturday and Sunday with his father and mother, Mr. and Mrs. Robert H. Williams.
 Charles R. Williams had a narrow escape Monday at his home. While attempting to mount a young horse he was thrown to the ground, his foot hanging in the stirrup. By holding on to the plunging animal by the partly broken reins he perhaps averted a serious injury.

Unknown parties placed four new railroad spikes and some pieces of iron in the bundles of the wheat stacked near the fair ground, which necessitated a stoppage of the machine during the process of threshing and damaging the machine to some extent. One of the spikes caught in the machine and was thrown back, striking the feeder with violent force on the side, but being a glancing lick he fortunately received little injury.
 Wheat threshing is in progress this week on the East Limestone ridge by Bud Sweet, which completes his run of the season. He has threshed between 8,000 and 10,000 bushels. It is claimed that he has the best machine on the road, cleaning the wheat perfectly. He threshed over 400 bushels for John Adams without making a single stop.

THE BEE HIVE

Is it Warm Enough For You?

You have heard that question asked before and now you can give an affirmative answer. Yet there is some satisfaction in knowing that there are various ways of keeping cool. The soda fountains supply coolness for the "inner" man. We try to look out for the "outside" comforts of woman. The cool lawn dress, the breeze-making Fans, the summer Wrapper and the "Royal" Waists are all strong defiers of the summer heat.

We still are offering our goods at rebuilding prices, and if our advertisements do not attract you our goods surely will.

We still have some of those 79c. "Royal" Waists.

MR. MILTON BRAMEL.

One of the County's Good Citizens and Thrifty Farmers Laid to Rest Tuesday.

Mr. Milton Bramel died Monday morning at 5 o'clock at his home between Orangeburg and Mt. Gilead, of miliary tuberculosis. The disease is a very rare one. He was sixty-two years of age and was one of the county's good and industrious citizens. His wife, who is a sister of Miss Mellie Dickson, of this city, survives, and he leaves four sons. Mr. Bramel was a nephew of Mr. Turner Bramel, of Forest avenue, and leaves a large number of other relatives in this city and county.

The funeral services were conducted Tuesday at the residence by Rev. R. E. Moss, and the remains were later laid to rest in the Maysville Cemetery.

To Whom it May Concern.

We call attention of the City Council that the property-owners pay taxes and for lighting the streets. Monday night the gas was not lighted on West Third street, and there was a robbery committed. The city should look at the gas account when presented. No gas protection, and no police protection. In conclusion we will ask when will the water company blow the foul water from its mains?

Among the arrivals at the Central Hotel a few days ago was a man who registered as "J. H. M. Erwing, Huntington, W. Va."

Tuesday when he went to settle his bill he offered Landlord Daugherty a check on a bank at Logan, W. Va., for more than the amount. Mr. Daugherty concluded to wire to Logan and ascertain Mr. Erwing's standing before cashing any of his paper. Some time elapsed before he received an answer, but the delay was explained when Chief of Police Donovan showed up with a telegram from the Logan authorities asking him to arrest Mr. Erwing. The latter submitted quietly, and later agreed to go back without awaiting the formality of a requisition. Chief Donovan left on the 10:41 train for Logan with his man.

It is reported Erwing is wanted at Logan for passing several checks that were "n. g."
